

## Finding a 4H leader to work with

If your chapter would like to work with a local 4H group but doesn't have any 4H contacts, call your local county extension agent. Every county has an office, who works in conjunction with 4H. If you can't find your local county extension agent, contact your state's land grant university. You can find your state information online at [www.4-h.org](http://www.4-h.org), by phone book, or your local library.
